About Us

Baltic Sea States Subregional Co-operation (BSSSC) was established in 1993 in Stavanger (Norway) based on an initiative of some of the Baltic Sea Region Foreign Ministers who established the Council of the Baltic Sea States (CBSS) in 1992.

The Ministers wanted a platform for dialogue with regions around the Baltic Sea, and BSSSC continues to make use of its role as a regional partner to CBSS promoting and advocating the interests of the regions.

BSSSC acts as an open, non-party political, network organisation with no membership fee, representing the interests of all regions around the Baltic Sea.

Creating a more sustainable, better accessible and prosperous Baltic Sea Region

What We Do

Facilitate multi-level dialogue

support the EUSBSR governance structure representing regional authorities in relevant policy areas and horizontal areas; serve as a networking arena for dialogue between public and private sector; serve as a platform for young people in the BSR to strengthen youth participation

Strengthen interregional cooperation

and serve as a strong and recognised platform to voice the interests of the regions in BSR by actively engaging in policy discussions and lobby work on topics of particular relevance for the regions - towards decision makers, such as national governments, the EU institutions and inter-governmental organisations

Support projects

and be a platform for project development, partner search and dissemination of project ideas and results as well as an arena for exchange of best practises
