

# ***Plastic Free Baltic Sea***

BSSSC Annual Conference

Session 30.9.

# Plastic Free Baltic Sea

- Plastic waste in the oceans is one of the largest environmental problems, which affects all the seas of the world. Could the Baltic Sea be the first plastic-free-sea in the world? What can we do together, and what can all different stakeholders do?
- In our session we hear what is already going on, and have a common discussion of the idea – raised by young people!

## **Baltic Sea – the first plastic-free sea in the world!**

Moderator Ms Sari Rautio, chair of board

**Video:** [https://www.youtube.com/watch?v=bSRd9XyJQCQ&ab\\_channel=SergeyDubcak](https://www.youtube.com/watch?v=bSRd9XyJQCQ&ab_channel=SergeyDubcak)
